

**LUMIFIELD AI**

01 / 11

THE AI ADMISSIONS NAVIGATOR FOR CENTRAL ASIA

Every student in Kazakhstan gets the guidance that used to cost \$2,000 — for the price of a pizza.

PRE-SEED • 2026

ALMATY, KAZAKHSTAN

[LIVE PRODUCT →](#)

TALENTED STUDENTS LOSE TO **BAD INFORMATION**

A student in Kazakhstan who could get into MIT often doesn't — not for lack of ability, but because nobody told them what to do, or when.

SCATTERED

Olympiads, grants and scholarships live across dozens of sites, Telegram channels and Instagram posts. No single source, nothing verified.

MISSED

Deadlines pass silently. One missed date means waiting a full year for the next cycle.

UNAFFORDABLE

Private admission consultants charge \$500–2,000 per student — out of reach for most families here.

DIRECTIONLESS

"What should I even study?" gets answered by a relative's opinion, not by evidence about the student.

ONE PLACE, FROM "I DON'T KNOW" TO SUBMITTED

Lumifield AI replaces a \$2,000 consultant with an AI that knows the student, knows the local landscape, and never forgets a deadline.

KNOW YOURSELF

A 20-question survey turns grades, subjects, interests and constraints into a real direction — not a horoscope.

KNOW THE OPTIONS

A verified catalog of opportunities: olympiads, grants, internships and summer schools, local and international.

KNOW THE PLAN

A roadmap by semester with tracked deadlines, diagnostic tests and admission-chance estimates.

FOUR STEPS, ONE EVENING

1**ANSWER 20 QUESTIONS**

Grades, strong and weak subjects, language certificates, interests, budget, target country and year.

2**GET THE AI REPORT**

Careers matched to the profile, real universities with requirements and deadlines, a motivation letter draft, reading list.

3**FOLLOW THE ROADMAP**

The plan adapts to the student's year — grade 9 through second-year university — with concrete opportunities at each phase.

4**APPLY ON TIME**

Deadline tracker, materials checklist, diagnostic IELTS/SAT/HSK scores, and an AI assistant for the essay.

ALREADY SHIPPED, NOT A MOCKUP

AI GUIDANCE ENGINE

20 questions to a full personalised report in seconds.

OPPORTUNITY CATALOG

50+ verified programs with checked deadlines and direct application links.

ADMISSION ROADMAP

Phased plan with a 3D globe of target countries and progress tracking.

LEVEL DIAGNOSTICS

IELTS / SAT / HSK tests that estimate admission probability per university.

LUMIFIELD AI

An assistant for essays and product questions — with an explicit rule never to write the essay for you.

TRILINGUAL

English, Kazakh and Russian — including the AI's own answers.

FREE TO START, PAID TO WIN

FREE

\$0 / forever

- ✓ Full opportunity catalog
- ✓ AI career guidance
- ✓ Programs per direction
- ✗ University matching

CORE REVENUE

LUMIFIELD+

\$15 / month

- ✓ Personal AI roadmap
- ✓ University matching
- ✓ IELTS / SAT / HSK + chances
- ✓ AI essay assistant

LUMIFIELD PRO

\$50 / 6 months

- ✓ Everything in Plus
- ✓ Universities with deadlines
- ✓ Advanced AI review
- ✓ Priority support

The free tier drives acquisition; conversion happens when a student gets serious about applying. Next revenue lines: B2B licences for schools and education centres, and partnerships with program organisers.

CONSULTANT DEPTH AT APP PRICE

SOLUTION	PRICE	PERSONALISED	LOCAL CONTEXT	KZ / RU LANGUAGE
Private consultants	\$500– 2,000	Yes	Yes	Yes
Crimson, CollegeVine	\$100+ / mo	Yes	No	No
Telegram channels, spreadsheets	Free	No	Partial	Yes
Lumifield AI	\$15 / mo	Yes	Yes	Yes

Global platforms are priced for Western families and know nothing about Bolashak, Daryn olympiads or NIS students. Local alternatives are free but unverified and impersonal. We hold all four columns.

BUILT AND LIVE, BY ONE FOUNDER

50+

VERIFIED OPPORTUNITIES

3

LANGUAGES, INCL. AI OUTPUT

- ✓ Production web app live, with accounts and cross-device sync
- ✓ AI report engine, level diagnostics and essay assistant working end to end
- ✓ Subscriptions and promo codes built; Stripe and Freedom Pay integrations coded
- ✓ Telegram moderation pipeline for community-submitted opportunities

FROM PRODUCT TO BUSINESS

NOW**PAYMENTS LIVE**

Legal entity and gateway settled, first subscriptions collected.

3 MONTHS**FIRST PAYING COHORT**

School and education-centre partnerships driving steady signups; conversion and retention measured.

6 MONTHS**B2B PILOT**

Licence Lumifield AI to schools as their guidance layer, with a teacher dashboard.

12 MONTHS**REGIONAL EXPANSION**

Uzbekistan and Kyrgyzstan — same problem, same gap, adjacent languages.

SOLO FOUNDER, SHIPPING DAILY

ARNUR BIZHIGITOV — FOUNDER

Full-time. Built the entire product end to end: product and UX, full-stack development, AI integration, payments, trilingual content.

Student at Tamos High School, Almaty. Serial student builder — Sway (a debate social network), YouPath AI (an LLM career navigator) and Air Studio (a gesture-based drawing app). Organising the Silk Road Hackathon in Almaty, and active in Kazakhstan's Model UN community as delegate, co-chair, expert and organiser.

WHY THIS FOUNDER

- ✓ I'm the target user — going through admissions myself, right now
- ✓ Technical: features ship in days, not sprints
- ✓ Local: I know Bolashak, Daryn and NIS from the inside, not from a report

WHAT I NEED FROM THE PROGRAM

DISTRIBUTION

Introductions to schools, education centres and student communities across Kazakhstan.

INFRASTRUCTURE

Help settling the legal entity and payment gateway so subscription revenue can start.

MENTORSHIP

Turning a working product into a business: pricing, conversion, retention, first hires.

Goal by demo day: payments live, first paying cohort acquired, and school partnerships feeding steady growth.
